

Sandlot Games to Develop New Games for Leading Online Game Publisher

New games to be widely available through WildTangent's Distribution Network

REDMOND, WA, March 24, 2003 - Sandlot Games, a developer of entertaining computer and mobile games announced today it will be developing seven new game titles to be published and distributed by leading online game publisher, WildTangent.

Two of these games, Excavation and Honeycombs are currently available for sale to end users through WildTangent's distribution network of leading ISPs, portals and consumer PC manufacturers. Both games feature entertainingly simple gameplay and high production values.

"Our relationship with WildTangent illustrates our commitment to create games that will truly drive the online game market forward," said Daniel Bernstein, president and CEO, Sandlot Games. "WildTangent's broad distribution and cutting-edge game development platform allows us to develop premium online games and easily distribute them to a broad audience of active game players."

"We are extremely pleased to be working with Sandlot Games to bring these high-quality games to millions of Web Driver users," said David Schwartz, vice president of content, WildTangent. "We are committed to working with great developers like Sandlot Games to deliver games that offer the most robust gameplay available online today."

About Sandlot Games

Sandlot Games, <http://www.sandlotgames.com>, was founded in 2002 by game industry veteran Daniel Bernstein with one simple mission: to make fun games that all people can play, from the novice to the hardcore gamer, on their computers and mobile phones. Sandlot Games' talented team of game designers, engineers and artists create high-quality entertainment for millions of consumers worldwide.

About WildTangent

WildTangent, based in Redmond, WA, is the leading online game publisher and distributor. Founded in 1998, the company's Web Driver platform leverages DirectX technology to enable the development of high-quality games that can be delivered and played over the Internet. With more than 38 million downloads, Web Driver is the most ubiquitous online gaming platform on the market today.
